Aviation Safety-Education Seminar

The CFI Road Show

PROGRAM

Designed especially for active CFI's, perspective CFI's, and those looking forward to returning to instructing, ***The CFI Road Show*** will help dust off the cob webs of topics you may not have looked at since your CFI training. We'll review flight maneuvers and teaching techniques, and look at special emphasis issues that you deal with in every day instructing. Scheduled at **AIRPORT SITES** only, for the convenience of driving-in or flying-in, each session will review a flight maneuver, an FOI topic area and one additional special emphasis issue. An informal meeting session planned to address the topics you want to hear! Plan on joining us every **Third Friday** of the month.
